

MILAN ACUPUNCTURE CONGRESS 2021

From East to West: the multiple voices of Chinese medicine

So Wen - S.I.A.

November 20th – 21st, 2021

INTERNATIONAL CONGRESS – FREE STREAMING

By spreading from China, the country of its birth, to the West, Chinese Medicine has come to express a variety of facets that witness both its intrinsic wealth and its applicability even in very diverse cultural contexts. Each one of the approaches informing its current multiple styles of practices presents both points of strength and weakness.

As believers in the fact that a constructive exchange of viewpoints can lead to the positive development of Chinese Medicine, Centro Studi So Wen has asked 30 world renowned experts to talk about ‘their’ way of understanding Chinese medicine.

AIM OF THE CONGRESS

There are many ways of practicing Chinese Medicine, and just as many ways of experimenting with it: basic research, clinical trials, integrated medicine, traditional and classical Chinese medicine. All have greatly contributed and still contribute to its diffusion. At this congress, we asked our 30 plurivocal world-renown experts to talk about what entices them, what makes them passionate, and what they believe is worth enhancing and transmitting to the future generations. Although during these two days, we are all invited to listen to many apparently discordant voices and opinions, we hope that this event will facilitate a constructive exchange of knowledge and opinions.

WHO IS IT INTENDED FOR?

Acupuncturists	Medical Doctors	Health Professoressionals	Health Institutions	Media
----------------	-----------------	------------------------------	---------------------	-------

ORGANIZED BY

 <p>Centro Studi So Wen ETS is a non-Professorit medical-scientific association, statutorily dedicated “to scientific research, in its own private clinic and in collaboration with public / private, national and / or international health / scientific institutions; it is dedicated to training activity, also within the continuing education program, through courses, seminars, conferences held in residential and / or telematic form “.</p>	 <p>S.I.A. – Italian Society of Acupuncture – founded in 1968, brings together Italian physicians interested in the study, deepening, application and promotion of acupuncture and other techniques of Traditional Chinese Medicine. This aim is achieved through the publication of a six-monthly journal, a quarterly bulletin, three seminars and a yearly congress for the continuing education of associates.</p>
