

Mercoledì, 13 novembre 2024

	AUDITORIUM SIRENE	NETTUNO 1-3	NETTUNO 4 SALA ECM	NETTUNO 5	NETTUNO 6	TRITONE	ULISSE	CAPRI
14.00-14.30		Oral Communications RWE: Focus on DDI Studies and Medication Reconciliation	Oral Communications Neurodegenerative Diseases I	Oral Communications Pharmacognosy I	Oral Communications Update from preclinical and clinical research	Oral Communications Cancer Pharmacology I	Oral Communications Cardiovascular and Metabolic Pharmacology	Oral Communications Immunopharmacology
14.30-15.00								
15.00-15.30								
15.30-16.00								
16.00-17.00								
17.00-18.00	Opening Ceremony							
18.00-19.30	Plenary Lecture Advancing RNAi Therapeutics and the Importance of Being Unreasonable							
19.30-20.30	Round Table Opportunities and challenges in a changing regulatory landscape							
21.00	Welcome Cocktail							
	Serata Giovani							

Giovedì, 14 novembre 2024

	AUDITORIUM SIRENE	NETTUNO 1-3	NETTUNO 4 SALA ECM	NETTUNO 5	NETTUNO 6	TRITONE	ULISSE	CAPRI						
8.30-9.00		Symposium Unravelling sex differences in cognition and behaviors for better pharmacological treatments in neuropsychiatric disorders	Oral Communications Inflammation Pharmacology I	Symposium Clinical research: children on board	Oral Communications Gastrointestinal Pharmacology	Symposium Anticancer drug discovery and preclinical development: methods and targets	Symposium How technology can accelerate drug development	Oral Communications Pain Pharmacology						
9.00-9.30														
9.30-10.00 *														
10.00-10.30 *														
10.30-11.00 *														
11.00-11.30 *		Symposium Endocannabinoid signaling perturbations and neurodevelopmental trajectories	Symposium Climate change, environment degradation and respiratory diseases	Symposium The role of clinicians and pharmacologists supporting AI/FA drugs evaluation processes	Symposium Oncology 3.0: new drugs and technologies in oncogene-addicted solid tumors	Symposium Mechanism, efficacy and safety of medical devices made of substances: how to win the hurdle run	Symposium The landscape of novel therapeutics in lysosomal storage diseases and glycoses: from enzyme replacement therapy to drug repurposing							
11.30-12.00 *														
12.00-12.15	Plenary Lecture Gene Therapy for drug-resistant temporal lobe epilepsy													
12.15-13.00														
13.00-13.30	Lunch/Poster Session													
13.30-14.00														
14.00-14.30														

Giovedì, 14 novembre 2024

	AUDITORIUM SIRENE	NETTUNO 1-3	NETTUNO 4 SALA ECM	NETTUNO 5	NETTUNO 6	TRITONE	ULISSE	CAPRI					
14.30-15.00		Symposium Translational Pharmacology in Alzheimer's Disease: searching for new targets or new drugs?	Symposium The evolution of drug R&D and pharmacology in the context of AI, start-ups and innovation districts	Symposium The dual challenge of immune system disorders: the case of vitiligo and oncological immunotherapies	Symposium Pharmacological properties of mediterranean plant extracts	Symposium Gene editing and gene silencing approaches for dyslipidemia and cardiovascular disorders	Symposium Beyond Molecules and Routes: Unveiling the True Value of Pharmaceuticals	Symposium Medication review and deprescribing					
15.00-15.30 *													
15.30-16.00 *													
16.00-16.30 *													
16.30-17.00 *													
17.00-17.30 *		Lecture Decision making in rare disease: could RWE and biomarkers make the difference?	Lecture The value of a topical pan-JAK inhibitor in the treatment of Chronic Hand Eczema	Symposium Innovative pharmacological aspects of chronic heart failure therapy	Symposium Beyond Pharmacogenomics: Blood-Based Biomarkers in Cancer	Oral Communications Cancer Pharmacology II							
17.30-18.00													
18.00-18.30													
19.00-19.30	Poster Session Cheese & Wine												
19.30-20.00													
20.00-20.30													

Venerdì, 15 novembre 2024

	AUDITORIUM SIRENE	NETTUNO 1-3	NETTUNO 4 SALA ECM	NETTUNO 5	NETTUNO 6	TRITONE	ULISSE	CAPRI					
8.30-9.00		Symposium Targeting the interaction between gut microbiota, mucosa, and neuro-immune system: a new hope in gastrointestinal pharmacotherapy	Symposium Emerging trends in New Psychoactive Substances (NPS): From preclinical evidences to clinical perspectives	Lecture The first drug approved for Acantamoeba Keratitis and its patients implications	Symposium Innovative solution in clinical pharmacogenomics: multi-omics data and one health approaches	Symposium Innovative pharmacological aspects of chronic heart failure therapy	Oral Communications Rare Diseases and Orphan Drugs	Oral Communications Neuropharmacology I					
9.00-9.30													
9.30-10.00 *													
10.00-10.30 *													
10.30-11.00 *													
11.00-11.30 *		Symposium Biomarkers for optimization of therapy of inflammatory bowel disease: from theory to practice	Symposium New frontiers in treating mental and addictive disorders: unveiling the therapeutic potential and mechanisms of hallucinogens	Lecture Benefit/risk profile of P3K inhibitors in rare non-oncological diseases: lenilolisib in the APDS case	Symposium New possible pharmacological targets for the treatment of eating disorders	Symposium The evolution of mutational analysis in clinical, pharmacological and organizational aspects: opportunities and implications for the system							
11.30-12.00 *													
12.00-12.15	Plenary Lecture Drug discovery across academic and industrial sectors: the value of collaboration												
12.15-13.00													
13.00-13.30	Lunch/Poster Session												
13.30-14.00													
14.00-14.30													

Venerdì, 15 novembre 2024

	AUDITORIUM SIRENE	NETTUNO 1-3	NETTUNO 4 SALA ECM	NETTUNO 5	NETTUNO 6	TRITONE	ULISSE	CAPRI					
14.30-15.00		Symposium Novel targets and novel mechanisms in immunopharmacology	Symposium Neurobiology of anorexia nervosa: preclinical and clinical evidence	Symposium Digital Therapeutics: next generation pharmacology	Symposium Pharmacology in Neonates: small size, huge challenges	SIF-Farindustria Symposium Data Quality in scientific research: challenges and opportunities	Symposium Exploring novel pharmacological approaches for chronic pain management	Symposium Current approaches to the integration of gender specific pharmacology in teaching					
15.00-15.30 *													
15.30-16.00 *													
16.00-16.30 *													
16.30-17.00 *													
17.00-17.30 *		Symposium Purinergic signaling in cancer and neurodegenerative diseases: towards purine-based therapeutic approaches	Symposium Impact of chronic stress on the onset and progression of mental disorders: searching for novel pharmacological targets	Symposium Beyond the Pandemic: the importance of vaccinations and the monitoring of their safety profile	Symposium Anti-inflammatory drugs from naturally derived to synthetic molecules and back: the new frontiers of NSAIDs	Symposium Glymphatic system as a bridge connecting pain, sleep disruption and brain (dys) function							
17.30-18.00													
18.00-18.30													
18.30-19.00	SIF General Assembly												
19.00-19.30													
19.30-20.00													

Sabato, 16 novembre 2024

	AUDITORIUM SIRENE	NETTUNO 1-3	NETTUNO 4 SALA ECM	NETTUNO 5	NETTUNO 6	TRITONE	ULISSE	CAPRI				
8.30-9.00		Symposium Novel drug candidates targeting phosphodiesterase (PDE) families 4 and 9 as an emerging strategy for cell survival and CNS diseases	Oral Communications RWE: New updates in oncology, pain management and diabetes	Symposium Impact of drug abuse on neurodevelopment trajectory: from molecular mechanisms to behavior	Oral Communications Pharmacology of Neurodegenerative Diseases II	Oral Communications Overview of Therapeutic Drug Monitoring	Oral Communications Pediatric Pharmacology	Oral Communications Inflammation Pharmacology II				
9.00-9.30												
9.30-10.00 *												
10.00-10.30 *												
10.30-11.00 *												
11.00-11.30 *		Symposium Unmet medical needs in the management of tardive dyskinesia	Symposium The pharmacology in the preclinical and clinical era of transgener medicine	Symposium Therapeutic applications of microvesicles and microparticles in the context of immunopharmacology	Symposium Marine Pharmacology: new opportunities for human health							
11.30-12.00 *												
12.00-12.15	Plenary lecture Endothelial cell lipid metabolism and vascular diseases											
12.15-13.00												
	Conclusions and Awards											

\* OPEN COFFEE
