91<sup>st</sup> Congress of the European Orthodontic Society  
June 13-18 / 2015 Venice / Italy

# WELCOME TO VENICE EOS 2015

The European Orthodontic Society (EOS) is one of the oldest scientific associations, founded in 1907. During its history, a memorable Congress has taken place in different European countries almost every year, including five times in Italy.

Twenty-three years ago, the 68<sup>th</sup> Congress of the European Orthodontic Society was held in Venice, and it is still remembered as one of the best congresses.

With the Local Organizing Committee I am proud to offer you an exciting programme, with 11 keynote lectures and interesting topics. The programme is intended for all those with an interest in orthodontics, ranging from trainees to junior and senior specialists. There will also be a pre-congress and a postgraduate course.

EOS Congresses aim not only to introduce and disseminate knowledge among orthodontists, but also to facilitate communication with colleagues from different countries. It is one of the best opportunities to bring colleagues together, to share and advance their clinical and scientific expertise.

In addition to the scientific programme, there will be time to discover the beauties of Venice and the islands of its lagoon. Venice does not need to be introduced; it is one of the oldest and most famous cities in the world. Its history is reflected in hundreds of canals, beautiful churches, fascinating palaces, museums and picturesque narrow streets called "calli", without forgetting the sandy beaches of Lido.

On behalf of the EOS and the Organizing Committee, I am honoured to welcome you to Venice in the name of Francesca and I hope your stay will be memorable.

**Welcome to Venice EOS 2015**

**Antonio Miotti**  
Chair of the Congress

## **SCIENTIFIC COMMITTEE**

Antonio Maria MIOTTI - **Chair of Congress**

Alberto LAINO - **Scientific Chair**
