Dear Sir/Madam

Determination of an interim orders panel of the Medical Practitioners Tribunal Service

I write to advise you of the outcome of an interim orders panel hearing. The doctor named below qualified in Italy and I am therefore notifying you as part of our commitment to information exchange between medical regulators.

Name: Dr Konstantinos Kaloudis

Date of birth: 23/03/1972

GMC reference number: 7358011

Registered qualifications: Laurea 1998 Università degli Studi di Milano

Sanction: The panel imposed the following conditions on Dr Kaloudis' registration:

1. He must notify the GMC within seven calendar days of the date these conditions become effective:

- a of the details of his current post, including his job title, job location and responsible officer (or their nominated deputy) information
- b of the contact details of his employer and/or contracting body, including his direct line manager
- c of any organisation where he has practising privileges and/or admitting rights.
- d of any training programmes he is in
- e of the contact details of any locum agency he is registered with.

The MPTS makes impartial decisions in doctors' fitness to practise hearings. The MPTS is part of the General Medical Council, but it is operationally separate and it is accountable to Parliament

The GMC is a charity registered in England and Wales (1089278) and Scotland (SC037750)

2. He must notify the GMC:
 - a of any post he accepts, before starting it
 - b if any formal disciplinary proceedings against him is started by his employer and/or contracting body, within seven calendar days of being formally notified of such proceedings
 - c if he applies for a post outside the UK.
3. He must allow the GMC to exchange information with his employer and/or any contracting body for which he provides medical services.
4. He must get the approval of the GMC before starting work in a non-NHS post or setting.
5. He must only work as a middle grade doctor in general medicine and/or cardiology.
6.
 - a He must be supervised in all of his posts by a clinical supervisor, as defined in the Glossary for undertakings and conditions. His clinical supervisor must be approved by his responsible officer (or their nominated deputy).
 - b He must not start/restart work until his responsible officer (or their nominated deputy) has approved his clinical supervisor.
 - c He must seek a report from his clinical supervisor for consideration by any reviewing panel.
7. He must inform the following persons of the conditions listed at 1 to 6:
 - a his employer and/or contracting body
 - b his responsible officer (or their nominated deputy)
 - c his immediate line manager at his place of work, at least one working day before starting work (for current and new posts including locum posts)
 - d any prospective employer and/or contracting body, at the time of application
 - e The responsible officer of any organisation where he has, or has applied for, practising privileges and/or admitting rights, at the time of application
 - f any locum agency or out-of-hours service he is registered with.

The order imposed on 7 September 2015 will be reviewed by an interim orders panel within six months.

I must stress that this is an interim order and there has been no finding against Dr Kaloudis.

In order to practise medicine in the UK a doctor must hold registration and a licence. Doctors who choose not to hold a licence still maintain registration with the GMC but must refrain from practising medicine.

If you do not currently receive the Medical Practitioners Tribunal Service Decisions Circular, which details the sanctions imposed on UK registered medical practitioners from the previous month, but would like to do so, please contact Dawn Magill at dmagill@mpts-uk.org

Yours faithfully

Mr Kevin McEvoy
