## SENIOR PHYSICIAN RADIOLOGY

### General information

Gjøvik sykehus is seeking a general radiologist with broad-based experience and expertise across all modalities. We have modern and whole/ total digitized department with 11 radiological laboratories including CT, MRI and ultrasound. Additionally a CT is available at the radiotherapy department.

The department carried out 63 000 examinations in 2005, of which 2/3 were polyclinic examinations. The radiology department has following established posts: 6 senior physicians, 3 interns, 23.5 radiographers, 2.5 nurses, 1.5 assistants and 6 clerical assistants. In cooperation with the university college, Gjøvik has participated in a project on sonographic education for radiologists since January 2007.

### Main tasks:

- General radiology, all modalities
- Daily organisation of one's section

### Qualifications and features:

- Broad-based expertise and experience in radiology
- Preferably specialized in MRI and/ or CT
- Inspiring for interns and radiographers
- Interested in cross-disciplinary cooperation
- Active, engaged and thorough

### Why choose Gjøvik sykehus:

Good working atmosphere with friendly colleagues at a middle-sized hospital with good career opportunities. Gjøvik has fine residential areas as well as stunning nature and a variety of leisure time- and outdoor activities in its close vicinity, both summer and winter. Moreover the international airport Gardermoen is within one hour of journey.
