Short presentation:

Optika Krstič s.p. and the eye care clinic Bonis d.o.o., located at Tržaška c. 15, Ljubljana began operations in 1984. The business operation has developed simultaneously with the eye care dispensary at the same location.

The state-of-the-art instruments, modern dispensary rooms waiting room offer a pleasant working environment for employees and simple and fast eye examination procedures for patients. The eye specialist has an independent status for performing medical services via its client Bonis d.o.o.

All necessary help in performing these services is offered by the nurse, who is employed in the Bonis clinic.

Work scope: (ametropia, presbyopia, amblyopia and nystagmus based on one's capacities, treatment of illness based on one's capabilities, re-direction to cataract and glaucoma, etc.). Prescription for occupational medicine; determination of allowed strength for glasses, prescription for contact lenses, measurement of eye pressure, examination of eye background and similar.

Minor surgery procedures are also executed: (optional and when necessary) removal of foreign bodies and eyelid moles, surgical drainage of chalazion, surgery of xanthelasma, flushing of tear ducts and healing of inflammation.

The costs of an eye examination are either covered by patients or payment is made on the basis of a concession with the public health network.

The dispensary working hours: Monday to Friday, 9 a.m.-12.30 and 2-7 p.m.

The concrete execution, description of work and work pricelist shall be agreed between the contracting parties.

Yours faithfully,

Miro Krstič
