

*The acute psychiatric department is a unit within mental health protection at Akershus Universitetssykehus HF (Akershus University hospital), which is located in Nordbyhagen, Lørenskog north of Oslo. The department offers acute psychiatric services to adults in need of immediate help. Akershus University hospital (Ahus) is undergoing a rapid professional and organizational development which is amongst others accelerated by the realization of the new university hospital building which were finished in autumn 2008.*

## SENIOR PHYSICIAN ACUTE PSYCHIATRIC DEPARTMENT

### General information

The acute psychiatric department is divided into a total of five posts, of which one is open, one is sub-acute/intermediary and three are closed posts. The department cooperates amongst others with the district out-patients clinics in Lillestrøm, Jessheim and Grorud, the specialized psychiatric department in Skedsmokorset as well as the geriatric department and medical department at the hospital. The duration of hospitalization varies depending on the patient's condition and need for treatment. Prior to the patient's release the hospital cooperates with other authorities regarding the further support and possible treatment. Join one of the most offensive and advanced hospital environments at Ahus.
