

## UK Job Opportunities for EU Medical Doctors

**Job Title:** Consultant Gynaecologist

**Job Reference:** KIM/35088

**Specialty:** Gynaecology

**Employer:** Private Healthcare Company

**Location:** South West of England

**Maximum Base Salary:** £95000

**Overtime / On Call available:** Yes

**Job Type:** Full Time Permanent

**Closing Date:** Ongoing

### **Employer Information:**

My client is a leading independent healthcare company contracted to deliver elective services to NHS patients.

The company delivers top quality healthcare, high professional standards and outstanding clinical results for both NHS and private patients.

Their service is based around the needs and preferences of the patient. As well as being focused on delivering rapid and flexible access to treatment, They offer a comprehensive service from planning through to treatment itself, which limits the need for repeat visits. Patient education about treatment and recovery is also a key focus of the services offered.

They employ high calibre people who deliver high standards of care and who value the role they play in making a difference to patients. Significant time and resources are invested in recruitment to ensure that rigorous standards are met and to ensure that staff are like-minded and focused on teamwork and delivery.

As well as focusing on effective service delivery on a day to day basis, they are constantly looking to improve standards of patient care through innovation to ensure that it continues to deliver excellent value to patients through the NHS.

### **Overview:**

The remit of the postholder will be to work within the multi-disciplinary team to provide and develop Gynaecology services to the treatment centres patients. In addition, the individual will be required to play an active role in developing a special interest area in out patients/office gynaecology in conjunction with colleagues.

All full time roles are 40 hours per week. A commitment to provide out of hours on call cover on a rota basis will be required. This is to be determined with surgical colleagues and prospective cover for the absences of colleagues, although first line cover will be provided by the Resident Medical Officer and little senior call in is anticipated. Opportunities may arise for further clinical work in addition to the basic contract.

The post holder will be required to perform gynaecological procedures on patients referred to the Treatment Centre, working in accordance with Treatment Centre protocols and working practices. This will include providing care for patients with common gynaecological problems such as menstrual disorders and urogynaecological symptoms. Procedures such as:

- Minor/intermediate procedures of the vagina, cervix, uterus, and fallopian tubes such as hysteroscopy, endometrial sampling, endometrial ablations, laparoscopy, tubal sterilizations, insertion/removal of MIRENAs etc
- Major procedures to include Vaginal Hysterectomy, Colporrhaphy, abdominal hysterectomy, TOT/TVT etc

The appointee will not be expected to undertake any investigations/procedures relating to the Cervical screening

programme nor any investigations for fertility based referrals.

The post holder will be required to build on close relations with other surgical colleagues as part of a multidisciplinary team. He/She will also be required to participate in audit, research and management of the service.

It is anticipated that the post holder will engage in specific management tasks and contribute to monthly departmental meetings and Treatment Centre in agreement with the Medical Director.

The post holder will possibly be allocated responsibility for the clinical supervision directly or indirectly of Junior medical and/or other clinical staff

The post holder will possibly be allocated responsibility for the management of specific consultant staff.

#### **Clinical Duties**

The surgeon will participate in the outpatients prior to surgery, and in all aspects of the operative care of the patients. It is anticipated that the surgeon will spend the equivalent of at least three days in the operating theatre and two days a week in a combination of outpatient assessment; administrative, management and clinical governance duties. S/he will work closely with clinical colleagues, both specialists and Resident Medical Officers, in order to enhance the level of patient care at the centre.

The final allocation of patient contact time, including theatre and Pre- Admission/Follow up clinics will be agreed in discussion with the Registered manager of the Treatment Centre.

#### **General responsibilities**

In addition to the clinical duties he or she will undertake the administrative duties associated with the care of his/her patients and with the running of the Department. Each consultant will be responsible for producing the appropriate clinical records for each patient

He/she will be expected to work with local managers and professional colleagues in the efficient running of services and will share with consultant colleagues in the medical contribution to management.
